

Dobbs is a disaster! The Role of the Medical Profession on the Road to Overturning Roe

This talk will first briefly recap some of the implications of the Supreme Court decision, *Dobbs v Jackson Women's Health* that overturned the 1973 *Roe v Wade* decision in June 2022. The bulk of my talk will address the role of the medical profession itself in creating the conditions that contributed to the eventual downfall of *Roe*. I will conclude this talk by pointing to some promising possibilities of increased abortion access, *Dobbs* notwithstanding, in the contemporary abortion landscape.
