

SOCIOECOLOGY OF SOCIAL AGING

INTERDISCIPLINARY CONFERENCE

**full-day program featuring world
renowned researchers**

DEMOGRAPHIC INFLUENCES ON SOCIAL AGING

Jeremy Koster: Kinship dynamics can shape selection for different types of prosociality across the lifespan
Diego Alburuez-Guitierrez: Kinship resources for older people: A global outlook
Stephanie Fox: The influence of adult offspring on the sociality of ageing mothers in wild chimpanzees
Katie Starkweather: Offspring as social partners for aging Shodogor women in Bangladesh

DIFFERENCES IN SOCIAL AGING PATTERNS BETWEEN SEXES AND THEIR POTENTIAL DRIVERS

Alyssa Goldman: Social isolation and loneliness in the momentary context: social network and gender differences among older adults
Irene Godoy: Kinship dynamics and sex differences in social aging: the case of wild capuchins
Zarin Machanda: Understanding the quality of bonds among wild male chimpanzees
Brian Wood: Sex differences in social contact across the life course among the Hadza

PHYSIOLOGICAL CONSTRAINTS ON SOCIALITY WITH AGE

Jacob Negrey: Functional predictors of social aging in wild chimpanzees
Emily Rothwell: Social aging in the context of brain aging and cognitive decline in common marmosets
Melissa Emery Thompson: Costly relationships and social aging in wild chimpanzees
Tom Kraft: Old, incapable, and lonely? How social engagement changes with age and physical disability in Tsimane forager-horticulturalists and Efe hunter-gatherers

SOCIAL RESERVES AND RESILIENCE TO AGING

Stacy Rosenbaum: Why are mountain gorillas resilient to early life adversity?
Michael Gurven: Does the social environment protect mental health? Evidence from Tsimane and Mose ten Amerindians
Raisa Hernández-Pacheco: Hardship in early life: fitness consequences and mechanisms of compensation in a primate population

Oct 17, 2024
